Professional Summary

Highly accomplished Lead Data and AI Engineer with 12+ years of experience designing and optimizing large-scale data and AI solutions, primarily utilizing Google Cloud Platform (GCP). Proven expertise in building end-to-end data pipelines, Generative AI applications (Vertex AI, BigQuery ML, Pub/Sub, Dataflow), and Agentic AI systems employing MCP and A2A architectures. Professional Data Engineer and Professional Cloud Architect certified, with a track record of delivering significant business outcomes, including the deployment of self-service Generative AI support and achieving substantial cost-efficiency across critical serverless pipelines.

Professional Experience

Senior Data and AI Engineer, Workjam — August 2024 - Present

- Configured and deployed AI Agents within the WorkJam platform, empowering customers to create and manage custom AI-powered assistants directly in the application.
- Architected and implemented data ingestion pipelines handling Change Data Capture (CDC) and near real-time updates, as well as incremental and batch processes, utilizing Dataflow, dbt, BigQuery, and Cloud Composer to ensure robust and scalable data workflows.
- Implemented advanced data modeling techniques, including Slowly Changing Dimension (SCD) Type 1 and Type 2, within BigQuery to ensure accurate historical tracking and optimize dimensional data for enterprise reporting performance.
- Developed a Data-as-a-Service (DaaS) solution enabling customers to securely subscribe to tailored datasets through automated delivery pipelines.
- Increased data processing efficiency and quality by 60% by refactoring and optimizing large-scale ingestion and transformation pipelines using Dataflow, dbt, and BigQuery.

Lead Data Engineer / Cloud Architect, ISolution - Premium Google Partner — February 2023 - August 2024

- Reduced HR support call volume by 60% by designing and deploying an enterprise-grade Generative AI self-service support chatbot using Vertex AI and Google Cloud.
- Led the implementation of robust ETL/ELT data pipelines, integrating disparate sources (AWS Aurora MySQL, MS SQL Server, DB2, GA4) into BigQuery and automating data cleansing, resulting in a significant reduction in manual processing efforts and operational costs.
- Maintained operational costs below $1/month while ensuring high reliability by architecting a serverless automated data transfer pipeline using Cloud Functions, Pub/Sub, and Cloud Scheduler.
- Developed and deployed a real-time predictive model using BigQuery ML and Vertex AI to accurately identify purchase intent for website visitors.

Senior Software Developer / Data Engineer, Credit Libanais Bank — April 2013 – February 2023

- Reduced data processing time by 25% by directing a major enterprise data migration project that modernized legacy banking systems.
- Developed and optimized complex ETL mappings and transformations, increasing system performance by 15%.
- Improved data response time by 20% for critical banking operations by designing and deploying high-performance data retrieval APIs.
- Designed and developed scalable software and data solutions aligned with enterprise banking operations based on detailed analysis of business and technical requirements.
- Collaborated with Mastercard to develop and integrate secure web services for the TRANSFAST Worldwide Money Transfer platform.

Open-Source Projects

- **Digital Creator Agent** | https://github.com/faridmitri/DigitalCreatorAgent

  Built a cost-optimized, autonomous Agentic AI pipeline that researches, writes, and publishes daily SEO-optimized content for ~$0.09 CAD per run, by implementing monolithic and distributed A2A architectures (Gemini 2.5, Imagen 4, Google ADK, MCP) on Cloud Run with keyless Workload Identity Federation.

Certifications

- Google Cloud Certified Generative AI Leader — July 2025
- Google Cloud Certified Professional Data Engineer, Google Cloud — Recertified June 2025
- Google Cloud Certified Professional Machine Learning Engineer — July 2024
- Google Cloud Certified Professional Cloud Architect, Google Cloud — November 2023
- AWS Certified Cloud Practitioner, Amazon Web Services Training and Certification — October 2022

Awards

- Bringing it Beyond Award for outstanding performance and lasting contribution for the year 2023, Isolution.
- Won 2nd in the Data and AI Hackathon competing against 20 teams, Google Cloud Qatar
- GEM Award for dedication, hard work and exceptional results, Isolution.

Skills:

- Cloud: Google Cloud Platform (GCP), AWS
- Data Engineering: BigQuery, Dataflow, dbt, Data Fusion, Pub/Sub, Cloud Functions, Fivetran, Informatica
- AI/ML & Agents: Generative AI, Agentic AI, Vertex AI, BigQuery ML, Prompt Engineering, LLM Orchestration, ADK, A2A, MCP
- Development: Python, SQL, Kotlin, RPG400, Looker, GA4, Database Management (DB2, SQL Server)

Professional Development:

- Google Cloud technical expert: Intelligent search — Online - August 2025
- Google Cloud technical expert: Customer engagement suite with Google AI — Online - August 2025
- Google Cloud technical expert: Build with vertex AI — Online - July 2025
- Build with AI Google Cloud AI Agent Stack: ADK, A2A, MCP — Google Montreal - July 2025
- Google Cloud AI Agents Advanced hands-on training (ADK) techniques — Google Montreal - July 2025
- Build with Google Gen AI (Vertex AI, Duet AI), Cloud Run, Spanner, Pub/Sub, Dataflow — Google Doha - December 2023
- Google Data Cloud and AI updates. BigQuery, Looker, Cortex, Generative AI solutions — Google Doha - May 2023

EDUCATION

Master's Degree, Engineering diploma in Computer Science — 2016
Conservatoire National des Arts et Métiers (France and Beirut)

Bachelor's degree, Computer Science — 2009
Lebanese University, Lebanon

LANGUAGES

English, French
